

## Eskimo Body Lotion

For dry and damaged skin

Body lotion with 5% urea. Has a moisturising effect and soothes dry and very stressed skin, also suitable for neurodermatitis. Urea is a key component of the skin's natural moisturising factor (NMF) and is becoming increasingly important in the treatment of chronically dry skin - whether it be caused by old age or illness. Eskimo Body Lotion absorbs quickly, leaving skin feeling delightfully velvety.

Without any added fragrances, colours and preservatives

**Ingredients:** Aqua, Urea, Pentylene Glycol, Glycerin, Cetearyl Alcohol, Dimethicone, Stearic Acid, Palmitic Acid, Sodium Cetearyl Sulfate.

Made in Germany
